GOOD BEER IS NUTRITIOUS

According to eminent authorities good beer is one of the most nutritious beverages we have. A notable physician has termed it "Liquid Bread," and not without sufficient reason, as good beer contains all the health-giving properties of bread. Beer is used to-day in millions of homes because of these health-giving qualities, but to retain all its excellent properties beer must be carefully made under clean and sanitary conditions.

The HOME BREWING COMPANY was organized with the purpose in view to supply a GOOD beer, as rich flavored, pure and healthful as expert knowledge and money could make it. We have established a standard of excellence since the inception of the company, and it has been our constant aim to maintain and better that standard.

By persistent endeavor we have increased our facilities, bettered our equipment and in the same measure raised the quality of our products. To-day our HOMBRUCO, PIEDMONT EXPORT and STANDARD LAGER are unsurpassed for excellence, and as a result the demand has increased by leaps and bounds. In keeping with our policy, prices are as low as consistent with the quality.

To-day these brands stand pre-eminent as the choice of the people and as the finest product of Richmond's industry.
